

Hidden away and only accessible by boat, Tawali Resort was painstakingly hand built by local craftsmen and the villagers of Milne Bay. The well appointed resort sits on a volcanic bluff overlooking the reef-fringed deep blue waters of Hoia Bay.

Each room has rosewood furnishings and has all the modern necessities of queen sized beds, en-suite bathroom, air conditioning, ceiling fans, mini bar fridge and private balcony.

The food here is excellent, mixing local cooking styles with Western cuisine. Dine inside amongst the beautifully carved totem posts or outside overlooking the rainforest, listening to the sound of nature whilst sampling the huge variety of "kai kai" from the buffet.

Diving in this region is spectacular, but if you prefer being above the water, there is hiking, skull caves, waterfalls and botanical walks to keep you occupied. Otherwise, just relax, read a book, or enjoy the view!
