experience

P A P U A N E W G U I N E A

This personalized boutique resort is a hidden oasis nestled atop a breath-taking fiord, with 180-degree panoramic views of the sea. It's a place that makes the outside world & all its daily stresses seem a million miles away. There's no transfer time and the complex is only 400 meters from the air strip where the staff will meet you on arrival. Tufi Resort is a perfect place to relax & un-wind, doing as little or as much, as you want. Although a sanctuary for many native animals, this beautiful hideaway offers creature comforts, (pardon the pun) you would never expect to find in such a remote location.

Tufi offers pure air and pristine reefs. Activities include bush & nature walks (where you can see many species of orchids, birds and butterfly's), beach barbeques, kayaking, snorkeling and deep sea fishing.

Or for the memory of a lifetime, you can experience the friendly atmosphere, of an overnight, village stay.

There's an amazing balcony overlooking the bay, an in-ground pool with views of the fiord below, budget and modern deluxe bungalows with 24 hour power & air conditioning, and a most remarkable building designed to encapsulate a reception, library, gift shop restaurant & a relaxing alfresco bar area... *hello margarita's!*

Located in Oro Province only 80 miles east of Kokoda and not too far from Popondetta and the border of Milne Bay. It's a perfect place for R&R after tackling the infamous Kokoda or Black Cat tracks, or after climbing Mt Wilhelm. Tufi is a stress free environment where the locals are warm and friendly ... a place where people can come on their own or with others, a place where you leave more relaxed, full of energy and totally revitalized. Not only is Tufi a good place to relax, It's also a great place for Corporate Challenges, Team building, Directors meetings & Conferences and we can even handle all of your Port Moresby accommodation & domestic air travel, to and from Tufi.
