Activities & tours:

HISTORY

Historic Kokopo and Rabaul towns have a remarkable history originating from the occupation of three colonial powers; Germany, Australia and Japan. The administrative headquarters of these various colonial powers interchanged regularly between Rabaul and Kokopo. Reminders and remnants of these ruling powers are still obvious throughout the districts with Bita Paka War Cemetery and the Kokopo War Museum.

We are in fact located on the site of the original German Deutscher Hof hotel when it was under German administration.

RELAXING

If you just want to relax, we have a fully fenced lagoon pool which is also ideal for children. Set amidst landscaped gardens, you can cool off anytime with a refreshing dip. We also have direct and easy access to our private beach.

LAND TOURS

Our Land Tours take you to explore old Japanese barge tunnels, firefly watching evening tour, bird watching tours, village stay, orchid tours and get up close and personal with our active and smoking volcano, and experience the devastation which now describes the town of Rabaul.

SEA TOURS

Surrounded by sparkling waters and cloudless skies, you will be mesmerized by the colour and clarity of our unspoiled waters. Our Sea Tours will show you the way to see the untouched beauty of Papua New Guinea.

SCUBA DIVING

This stunning location is fully accessible by public and offers a wide variety of PADI courses for all levels. We offer daily trips for the Certified Divers Course all the way up to the Dive Master Courses as well as shallow reef diving for those who prefer to observe fish at shallow depths. If you are looking for a little bit more excitement, then we offer great variety of dive sites right on the edge of the wall where there is always a high chance of seeing trevally, tuna or sharks passing by. Top of the wall can be great sight for turtles cruising around. But that's not all, of course Rabaul is famous for its World War II wrecks, so we do offer many wreck options in the area. There are planes underwater that are accessible by snorkeling at a depth of 3m. Most of the wreck starts between 13 to 17m depth.
