## Accommodation & Facilities

Walindi offers 12 self-contained private bungalows spread along the beachfront and surrounded by rainforest gardens. Built in the traditional style, each en-suite bungalow contains ceiling fans and a kitchenette with tea and coffee making facilities. Individua spacious bungalows ensure privacy and a comfortable stay. Also offered are 8 plantation hosue rooms offering lush garden views.

The central resort area consists of a swimming pool with sun deck surrounded by a dining room, lounge and bar area, boutique and a comprehensive library and internet facility. Wireless internet is also available in the main resort area.

## Diving

Papua New Guinea is located in the heart of the coral triangle - the centre of marine biodiversity which has the highest diversity of tropical fish and coral in the world. The waters of Kimbe Bay alone are home to over half the worlds speies of hard coral and over 900 species of fish.

Walindi's professional and friendly dive guides, our relaxed diving from custom built day dive boats and the diversity offered on more than 40 dives sites, all make for a memorable dive experience.

Diving operates every day on a 2 to 3 dive per day basis. Quality diving equipment is available for hire and nitrox tank fills are available.

## Land Tours

Walindi offers a variety of Land Tours exploring the areas surrounding the resort. Choose from a relaxing swim in a hot river, bushwalking or a trek up a volcano. Bird watching at dawn or dusk can be very rewarding with over 50 bird species recorded in the immediate area and over half of them Bismarck Archipelago endemics. Medicinal plant gardens, traditional dwellings and cooking areas are also included on some tours.

For anyone interested in war planes, the abandoned NZ4522 and B-25H Mitchellin are worth a visit. In the evening visit the firefly trees where the minute beetles flash in synchronous or pulsing waves of light.
